

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
REGION II

DATE: SEP 29 1994

SUBJECT: L.E. Carpenter / Dayco Superfund Site Cultural Resources Survey

FROM: Janet Feldstein, Chief
Central New Jersey Section II

TO: John Filippelli, Chief
Environmental Analysis Section

The Stage 1A Cultural Resources Survey Report, contained within the Final Supplemental Remedial Investigation Addendum (September, 1992), was reviewed by your office in September, 1992. The major comment was that the necessity of a Stage 1B Cultural Resources Survey would be dependent upon the specific locations required for excavation during the Remedial Action.

The draft Remedial Action Workplan, which provides the specific locations and depths of the excavations, is now available for review. Attached is the excerpt from the draft Remedial Action Workplan specific to the excavations and a map that designates the locations.

The State of New Jersey has requested that EPA expedite its decision regarding the necessity of the Stage 1B Cultural Resources Survey. If possible, a determination on or before October 15, 1994 would be greatly appreciated.

Should you have any questions, please call me at extension 0613, or have your staff call Sharon Jaffess at extension 2598.
